## Car Overturns When Steering Gear Breaks

A remarkable escape from a near fatal accident occurred on Friday last week, when the car being driven by Bob Fawcett overturned, throwing one of the occupants right out of the car, and pinning the remaining two underneath. Mrs. Cramer and R. Fawcett were pinned underneath the car, while Mrs. Taylor was thrown a considerable distance. The two ladies escaped with a few bruises and scratches, but Bob was not so fortunate, as he suffered a dislocated shoulder and a bad shaking up. The accident occurred just this side of Consort and was caused by a breakage in the steering gear. The party was taken on into Consort and their hurts attended to.

## Suffers Painful Accident

Newell, the young son of Mr. and Mrs. H. Grayburn suffered a painful accident on Monday last. It appears he was playing with some relatives who were visiting the family from the States, and in their play happened to scare a calf that was tethered out in the field. The calf becoming frightened, endeavored to bolt, with the result that the chain with which it was tethered caught the youngsters legs, throwing him heavily to the ground. Owing to the position of his arm when he fell, the arm was cleanly broken beneath the elbow. The little patient is doing as well as can be expected in the Consort Hospital.

The band was out in force, augmented by a large number of citizens, who were re-inforced with paper horns, squeakers, rattles, pans, fireworks, etc etc. Doe Larder obliged with a cornet solo "How Dry I Am" with full band accompaniment. Somehow, the crowd all got in the house, but finding quarters too small for such an army, they sojourned to Charleys restaurant, accompanied by the bride and groom. ### Meteorological Report

per courtesy of C. Connah, Esq. For the Month of July.

During the past month the weather for the district has been divided as follows. Total rain precipitation for the month was 1.52 inches. The heaviest fall occurring on the 21st when .72 inches fell. There have been 25 sunny days and 6 dull. 21 Calm days, 10 breezy or windy. 10 cool days, 13 hot and 8 warm days.

It is indeed peculiar how irregular the rainfall of the district is. For instance, last Friday during the heavy thunderstorm, heavy rains occurred 10 miles north and 2½ miles south but in the Monitor strip only .03 inches fell.

For those not conversant with the terms, we might say that the meteorological instrument records the rainfall in "Points" It takes 100 points to make an inch. Therefore, last Fridays rainfall measured exactly 3-100ths part of an inch.

(Continued.)  
"You're 'sure good medicine, Gloss," he said. "Yes, we are gettin' quite a nice plot of ground cleared, and I look for quite a nice yield this year, both in corn and taters. Trappin' don't seem to promise much for this winter, though. The noise and clatter of Hallibut's mill seems to be drivin' the mink and rats across the bay."

"Can't we make him take the mill away from Lee Creek?" asked the girl. "I hate the sound of it. Its noise drowns the song of the birds and its smoke hides the blue of the sky between the trees. What right had he to put that mill there, uncle?"

"Well, he owns a strip of bush on Totherside," explained McTavish. "It comes right up to Lee Creek. So you see the mill is on Hallibut's own property."

"Oh, look, uncle," cried the girl, "there's some black squirrels crossin' the corn-scrub now—five of them. I do believe auntie would relish a bit of stewed squirrel. I meant to tell Boy to shoot one or two for her this mornin', but he was gone before I was up."

Joe, the setter, broke from the thicket and loped across the corn-field. All summer he had acted as custodian of the field, and even now the squirrels stood in mortal terror of him, and the crows cursed him in guttural croaks from the tops of tall trees beyond the danger-line.

As the squirrels took to a lone hickory in the centre of the field, Boy McTavish came quickly around the corner of the house. He stood the clumsy hand-made fork he carried up against the lean-to, and mopped his face with his sleeve.

"Whew!" he whistled, "but it's turned out a fine day after all. Never knowed Injun summer to hang on so long. Hope it keeps up, dad, and we'll get the corn all husked yet before trappin' time. Suppose we have a bee and a dance at night, same as we did at the wood-bee? Deedle is goin' to have a loggin'-bee soon."

"Hello, Gloss," he called, catching sight of the girl, "How's ma this mornin'?"

"Better and hungry for squirrel," she answered, her eyes on the treed blacks.

She ran into the house and returned with a rifle. She handed Big McTavish the powder horn and, bracing her feet, cocked the gun.

"How far?" she asked, throwing it to her shoulder with a practiced hand.

"Sixty yards, anyway," answered Big McTavish.

"Nigher eighty," asserted Boy. "Too far Gloss, you'll miss sure."

A gleam of mischief shone in the gray eye sighted along the brown barrel. Then the rifle cracked, and a black ball detached itself from the hickory and went swinging down to earth in tiny circles. The dog gave a low whine and came bounding forward, the squirrel in his mouth, and allowed Boy to take it from him.

"Right between the eyes," said Boy proudly.

Big McTavish reloaded the rifle and handed it back to Gloss.

His face was wrinkled in a grin of mingled surprise and admiration.

"Neither you nor me could do any better, Boy," he said hesitatingly by way of admission.

"The one on the left next," motioned the girl, and the rifle spoke once more.

"Missed," gasped the man, "can't always make a bulls-eye, Glossie."

"Missed nuthin'," cried Boy; "there he comes now."

The second squirrel spun about on

the limb a couple of times, then went crashing through the branches.

"As Bill Paisley would say, 'that's remarkable shootin','" chuckled McTavish. "That distance is well over eighty yards, else I don't know distance."

"Nearer a hundred, I should judge," contended Boy. "She's got all the rest of the McTavish's beat, dad."

"Try another, Gloss," suggested McTavish, placing the cap on the nipple of the rifle with clumsy fingers.

"I thought maybe two would be enough," said the girl.

She took the rifle once again and glanced at Boy.

"Oh, go on, Gloss," he encouraged, "only one more. Fact is, I'm a bit hungry for corned squirrel myself."

"And I'm thinkin' I wouldn't turn up my nose at a plateful of stewed squirrel either," seconded the father.

"All right, just one more shot, then, hit or miss," laughed Gloss. "See that chap two ears and part of his head stickin' up above the knot? I'll take him this time, I guess, though it's no easy shot."

She fired, and the squirrel dropped from the limb. Another whine from Joe proclaimed it a clean kill.

Big McTavish, without so much as a word, took the gun inside. Boy held the animals up by their bushy tails and the girl who was watching him said:

"You ain't carin' much to see the blacks killed ever since the time you had Tommy for a pet, are you Boy?"

"Well, I don't know as I'm carin' much one way or 'other," he answered slowly. "Tommy was a cute little beggar, but he wasn't really a black. He was a gray squirrel. Greys are gentler and make much better pets than blacks. Tom Feeler one time had a black for a pet, and used him mighty good for two years. But one day that black pretended he wanted Tom to play with him and tickle him as he was used to doing, and it gave him a bad bite. No, the blacks are too cross for pets."

"Boy," said the girl suddenly, "I meant to tell you before—old Injun Noah was tellin' me yesterday that there's a big gray fox who makes his home on the Point. Noah says he's the biggest silver-gray he ever saw. Say's he's as big as a timber-wolf. But he is so cunning' nobody c'n get a shot at him."

"Well," smiled the boy, "I guess we needn't go after that feller, and you needn't worry about one little silver-gray. Just you wait awhile and you'll know what I mean."

He winked mysteriously, and Gloss laughed. Then her face grew grave.

"That man Watson was over here this mornin', Boy," she said. "You know what he wanted and you know how he'd get it. Well, I guess him and uncle had words. I was hidin' in a bunch of willows at the spring when he was goin' back, and when he passed me he was swearin' awful."

"Was he ridin' toward the trail or going toward Totherside?" asked Boy, his face darkening.

"I watched him cross the creek, and when he got across he rode toward the schoolhouse."

Boy turned away. Then he paused and looked at the girl.

"Boy," she said wistfully, "I wish we didn't have no school in this place. I wish Simpson would go away."

"Why?" he asked quickly. Slowly her eyes sank and her bosom heaved as her breath came in quick gasps.

He reached out and caught her, and for the first time in their young lives the girl struggled in his arms. He let her go, and stood back wondering. She looked at him and smiled. Her face was pale, and her long lashes did not conceal a look of dumb entreaty.

"Gloss—" he commenced. "Boy," she whispered, "we're built for chums, and chums we'll always be. But the old rompin' days are over now. Boy, you mustn't take me—you mustn't hold me like that again."

"We ain't boy and girl no more," he repeated. "He bent and picked up the squirrel. When he stood up again she had gone."

"We ain't boy and girl no more," he repeated. (To Be Continued.)

## Where Pontius Pilate Reigned

Colonel Storrs, Graduate of Cambridge, is New Governor Of Jerusalem

The office of governor of Jerusalem once occupied by Pontius Pilate, is now held by Col. Ronald Storrs, a graduate of Cambridge University, and son of the Dean of Rochester College, England.

His task is one to test the administrative ability of any man. Jerusalem is a city of disunions, where, whatever may come of the future, for the moment, Zionists and Arabs are passionately divided, and to steer a just path between them and induce them to join him on that path is thankless work.

It is to that task, however, that he chiefly devotes himself. Twice a week he has meetings of his favorite pro-Jerusalem society, when French, Italians, British, Americans, Rabbis, Zionists, leaders, commercial men of standing and others who are in any way prominent in the life of the city are brought together and in the course of debate, led to see they have in common a single citizenship. His motto as governor is, "unity and be friends."

Colonel Storrs was one of the prime movers in the establishment of an independent Arab kingdom. He is 38 years old.

## WELCOME TO EDITORS FROM THE OLD LAND

### HERE TO STUDY PROBLEMS

#### Purpose of Visit is to Learn More About This Dominion

Halifax.—Outlining the problems facing the English-speaking countries of the world and urging the necessity for co-operation between all countries, Lord Burnham addressed a large gathering of publishers and citizens of Halifax and district on the occasion of a civic luncheon tendered the delegates to the Imperial press conference.

Robert Donald expressed the hope that the 'moral lapse' of the United States will be temporary and that the United States would yet consent to assume some of the responsibility devolving upon it through its triumphant entry into the war. Viscount Burnham was the chief speaker on behalf of the overseas delegation, and acknowledged formal welcome given the press in Halifax. He reiterated that the purpose of the visitors from beyond the seas, as they affect the world publishers, was to see Canada and learn more of her problems and her people and regarding empire unity.

Several of the delegates spoke in the same vein informally during the Halifax welcome.

The afternoon was spent in informal social functions.

## Employment Increase

### Reports From 5,100 Employers Indicate That Industries Are In Good Shape

Ottawa.—Reports from over 5,100 employees to the Dominion headquarters of the department of labor employment service indicate that, disregarding loss of time due to the strikes, there was another increase in the volume of employment during the week ending June 26. For the following week, however, there was a net decrease in staffs of 140 persons, or two percent. The decline was attributed mainly to be estimated curtailment of operations in the iron and steel group of industries because of a shortage of fuel. In comparison with the returns for six months earlier in the year the firms reporting stated that they had made very considerable additions to the number of persons on their payroll.

#### French Fighter Injured

Montreal.—An injury to Georges Papineau, lightweight champion of France, in the fifth round of his scheduled ten-round bout here, with Fighting Fred Fitzgerald of Australia, brought the bout to an abrupt end. Papineau fell through the ropes and struck his head on the corner of the press table, being rendered unconscious. Up to this time there was little to choose between the two men, both fighting toe to toe for the four rounds.

#### Five-Year-Old Killed

Winnipeg.—Frank, five-year-old son of Mr. and Mrs. Anthony Dier, died at the Children's Hospital from the effects of scalding when he fell into a pan of boiling water yesterday. The boy was playing in the home with two sisters younger than himself when the accident happened.

#### Will Spend \$3,000,000 on Railway

Victoria.—Further construction of the Pacific Great Western railway is foreshadowed by the request from Hon. J. Hart, minister of finance, for bids for a loan of \$3,000,000 to be devoted to construction work on the railway.

#### Bolshevik Menace

Constantinople.—Refugees from Sultana and Kustendje in eastern Rumania, are arriving here in large numbers, fleeing from the Bolshevik menace. They report conditions to be highly unsettled in Rumania and declare that a Bolshevik movement is feared.

## Paris Waiting for Turks

### Peace Will be Signed if the Italo-Greek Controversy Is Patched Up

Paris.—If the Turkish delegates are not detained on their journey from Constantinople and arrive in time, it is probable that the peace treaty with Turkey will be signed at Severs as planned. There is a possibility, however, that Greece may withhold her signature from the treaty because of the controversy between Italy and Greece over the recent Aegean wrangle. The belief is expressed in the French official circles that the Italo-Greek controversy would be settled in time for signing.

The difficulty that loomed largely this evening was the fact that the Turkish delegates had not put in an appearance and that its whereabouts did not appear to be known. The delegation appeared to have left Bucharest on a train that should have brought it to Paris. Nothing has been heard of the Turkish plenipotentiaries, however, since the report of their departure from the Rumanian capital.

## Seek Pirate Gold

### Ontario Prospectors Leave For the South Seas With Metal-Finding Device

Ottawa.—Pinning their faith on the powers of a newly invented device for the detection of gold deposits, Andrew Cullins, a well known prospector of Haileybury, and Rev. Father Theriault, of the same town, passed through this city on their way to the south seas in the hope of finding the hidden pirate treasure on Treasure Island. It is claimed that the trip is being financed by a New York Capitalist, whose name has not been disclosed. Final arrangements are to be made when the travellers reach New York.

## Wheat in Storage

### Wheat in Elevators Shows Decrease Of 3,674,504 Bushels

Ottawa.—According to returns received at the department of statistics for the week ending July 9, the quantity of wheat in store at the different elevators throughout Canada has decreased by 3,674,504 bushels in wheat, oats, barley, flax and rye. The chief decrease was in the lake elevators, which was 1,131,324. In the western country elevators the decrease in all grains was 620,000 bushels.

## Three Saved from Drowning

### Were Rescued From Sinking Punt On Pike Lake

Saskatoon.—By a narrow margin, Alex. Wemyss, his wife and their baby daughter, 701 Thompson Chambers, were saved from what might have been three drownings in Pike Lake when Harry Tupling, of this city, and Hugh Forbes, boatman at Pike Lake, got to the sinking punt in which Mr. Wemyss and his family were sailing, in time to drag them out. It sunk almost immediately.

Mr. and Mrs. Wemyss are none the worse for their experience.

## IRISH MAKE A NEW MOVE FOR PEACE

### FOR A DOMINION POLICY

#### Nationalists Are Joining With the Others in Framing this Policy

Dublin.—Renewed activity is apparent in Irish political circles favoring dominion authority. Many Irishmen of all political faiths are subscribing to the new funds being asked for and asking for Irish self-government.

Nationalists hitherto violently opposed to this course have come round to favor it and have the support of the Freeman's Journal, which in recent months, under a new proprietorship, could not be distinguished from the Sinn Fein organization.

In agreeing to waive the republican claim and accept county operation for Ulster, groups have met both parties and agreed to waive certain agreements so that the settlement can be received, and Sinn Feiners think this will be the best policy. The Irish Journal looks forward sanguinely to an adjustment of the difficulty.

Influential Irishmen, under Lord Dunraven's leadership, are endeavoring to improve the conditions with the British government, and the Sinn Fein leaders to meet the premier, it is declared.

Powerful influence on the Sinn Fein policy is exercised by the Republican army which numbers more than 200,000, and has been described as occupying towards the Daol Eireann, the same relations as Cromwell's Ironsides, did to the commonwealth parliament.

## Villa Surrenders

## No Bonus for Industries

### Prairies Cannot Hope for Manufacturing Until Population Grows

Quebec.—The twentieth anniversary of Canadian municipalities, in session here went on record as opposing bonuses by municipalities as an inducement to industries to establish plants.

J. D. Saunders, city clerk, of Camrose, Alta., and secretary of the Union of Municipalities, spoke on the recent progress of western municipalities. During his speech he said that until the west has a population commensurate with its vast areas, there is no use of talking of establishing industries. J. N. Bayne, of Saskatchewan, discussing the bonus question, remarked that if firms were not strong enough to stand on their own feet without the aid of bonuses they should not look for help from the municipalities.

Alderman Dickson of Montreal, expressed his opposition to the bonus system. A firm which could not do business without a bonus was not worth much, he stated.

## JOINT REPLY TO THE NOTE FROM SOVIETS

### PREMIERS IN AGREEMENT

#### Poland Must be Represented in the Proposed Conference

London.—Mr. Lloyd George, before leaving Boulogne, informed the Reuter correspondent that a complete agreement had been reached on all points. It has been decided, subject to Italy's approval, to send a reply to Russia saying that certain things must be made clear before the allies will attend the proposed conference. Poland and other border states must participate in the conference whose primary object is to establish the peace of Europe. Then the conference could discuss the question between Russia and the allies with a view to establishing normal relations.

If the Soviet replies that it could only make peace separately, the conference will fall to the ground, according to Mr. Lloyd George. If the Soviet complies, the conference can meet within a month.

The British prime minister added that Premier Millerand had agreed that a good piece of work was done at Boulogne.

**English as We Speak It.**

The other day a Toronto city school superintendent promoted a teacher to the English department in the High School. He was discussing the work with her when she suddenly said, "Oh, Mr. —, it's going to be so hard for me. You see I've always used so much slang and now when I teach English I won't dare use any more."

"Slang," ejaculated that superintendent. "Well, believe me, Alice, you'll have to cut that out now."

**Sounds a Flier Hears.**

Gliding in an airplane with engine switched off, the shout of a man can be heard distinctly at the height of 1,400 feet, the sharp note of a mole cricket at 3,500 feet, and the croakings of frogs at 5,000 feet.

At 5,325 feet a man's voice and the rattling of a cart can be distinguished; at 4,550 feet the roll of a drum and the music of an orchestra; at 3,900, the crowing of a cock, the sound of a church bell, and sometimes the shouting of men and women; at 900 feet higher still, the report of a musket and the barking of a dog.

The noise of a railway train penetrates to a height of 3,300 feet, and the whistle of a locomotive to nearly 10,000 feet.

### Trend of the Times

What Western Cities are Doing in The Building Line  
Comparison is a mighty good guide from which to judge the trend of the times.

A comparison of the building activities in the Prairie cities point to an optimistic viewpoint and a belief that the present cost of building is not only justified but is not likely to make any rapid decline.

January 1st to May 31st

City	1919	1920
Calgary	\$1,076,800	\$1,245,500
Edmonton	128,775	1,396,725
Regina	453,760	4,273,650
Winnipeg	475,750	4,190,000

In Winnipeg, building permits for June, as at June 28th were approximately \$1,700,000, as against \$229,000 for 1919.

A very good percentage of this wonderful increase is for individual homes, of which thousands are being erected.

Approximately 600 houses and 14 schools will be built in Winnipeg in 1920. This is but an indication that is prevalent throughout Western cities of own "your own home" and "build now" idea.

Make it an individual question to settle with yourself. Are you a renter—in a home—a suite? Why not catch that "Build Now" spirit. Own your own home.

All lumber dealers are fully equipped to render every assistance. Free plans—working drawings and every co-operation is being rendered by the lumber dealers for promoting the "Build Now" idea.

A young man who could not get up enough courage to pop the question to his girl mailed a proposal. He got a postal card in reply, briefly stating "Fetch on your preacher."

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. ### Recruiting for Militia

Training Camps to be Established in All Parts of Canada

Reorganization of the militia forces of the Dominion is proceeding satisfactorily at present insofar as the selection of commanding and other officers is concerned, according to officials of the headquarters staff. It is not expected, however, that a great deal will be done in the way of recruiting before September. Then, it is expected, recruiting will get off to a good start, in view of the arrangements which have been made to train at local headquarters by city corps and some artillery and machine gun units.

By next summer, when it is fully expected that training camps will be established in all parts of Canada on a pre-war basis, it is believed that the various authorized regiments and other military units, will, without difficulty, be brought up to full strength.

### A Land of Opportunity

Canada is A Most Attractive Land to The Immigrant

In an article on Canada as a land of opportunity, the Manchester Guardian points out that never in her history has Canada been a more attractive land to the immigrant with political ideals. "Her growing sense of nationhood no less than her fresh outlook on her internal problems," the Guardian says "offers to a man of independent mind and democratic outlook a real hope of shaping things as he would wish in a new country. And above all her needs in importance is that of immigrants of the right stamp, men with the character and the fortitude to settle her great empty spaces that yield so rich a return to those who will dare and tame them, men who appreciate a country where needless social distinctions go by the board, and where the dignity of labor is more than a phrase."

## A MOTHER'S TRIALS

Care of Home and Children Often Causes a Breakdown

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, which, hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to get Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### For Manitoba Highways

Manitoba to Receive Federal Grant of \$80,000 for Good Roads

The Manitoba provincial treasury will this year be partly relieved of the burden of providing good roads in Manitoba, according to Hon. Geo. A. Grierson, minister of public works. Federal legislation which becomes effective provides that the federal government shall give the province a flat grant of \$80,000 for construction of roads, and bear the burden of 40 percent, of roads constructed. It is stated, however, that the flat grant is included in the percentage quoted. An official request for this assistance will be made by the provincial government in the immediate future.

Under the present provincial legislation the government bears 50 percent of the cost of construction in market roads and sixty-six and two-thirds percent of the cost of construction on provincial highways. In both cases, however, it is required that the roads be gravelled. One of the stipulations on which federal government pays 40 percent of the cost is that the particular road construction work on which this has been paid must be submitted for approval to the federal board set up under the act.

### Minard's Liniment Relieves Garget in Cows.

Earl Beatty, receiving the freedom of Sheffield, said that with the disappearance of the German fleet they were released from the burden of competitive building, but they must bear in mind that the day would come when veteran ships must be replaced, and under the present financial conditions very little would cost a great deal. The navy, he said, was now reduced to the lowest limits consistent with prudence.
